NARRATIVE				
<p>On July 27, 2010, I received an e-mail from Micah Doughty of the BLM Southern Nevada District Office Restoration Team. He informed me he had observed and photographed a water tank/trailer with a plastic pipe line coming from the tank and leading into the ground. The pipeline was buried. The location was on Gold Butte Rd. just south of Fishermans's Cove Rd.</p>				
<p>On July 29, 2010, I located the pipeline, though the water tank was no longer there. I observed the ground was disturbed, and there were tire tracks on both sides of the pipeline. The pipe was dark black, and appeared to be relatively new. The newly disturbed pipeline went both up and downhill from Gold Butte Rd. The line also appears to go underneath the Gold Butte Rd., however, that would have been preexisting, as there was no damage to the asphalt.</p>				
<p>On August 01, 2010, I walked the line both up and downhill, with</p>

INCIDENT/INVESTIGATION REPORT - CONTINUATION PAGE

INCIDENT # 1083100113	OFFICE NV*051 MESQUITE	STATE NV	DATE OF INCIDENT 07/27/10
LOCATION OF INCIDENT GOLD BUTTE ROAD		INVESTIGATING OFFICER R174 -SULLIVAN, DEBORAH J.	

NARRATIVE (continued)

the intention of locating the location and distance of the newly disturbed area. Due to extreme temperatures, I did not locate either end of the disturbance. I returned September 18 and laid GPS tracks for the total length of the disturbance. I located a water tank and large tire fabricated to hold water for cattle at both the top and bottom of the pipeline. The top of the (newly disturbed area) pipeline continues uphill to a spring, but this was not investigated as it may have been constructed when there was a grazing and range improvements allotment granted from the BLM.

Attached to this report is the Google Earth overlay of the GPS tracks, as well as photographs of the disturbance. The length of the new disturbance is approximately 3 miles.

Nothing further at this time. End of narrative.
